

2010 Gattefossé Canada/CSPS Award in Lipid-Based Drug Delivery

Gattefossé Canada is once again pleased to support scientific research in the field of Lipid-Based Drug Delivery, which consists of the following:

Objective: To recognize outstanding research in pharmaceutical sciences by the best research paper in the area of lipid chemistry and/or the role of lipids in drug delivery published by a graduate student within the last three years (2007 onward).

Award: Plaque and a monetary award of \$2,000.00, (which covers travel expenses and registration) to attend the annual CSPS Symposium. This award will be presented at the annual Symposium in Richmond, BC, June 2-5, 2010.

Applications should consist of a published manuscript from the past three years. The student must provide a one-paragraph explanation of their contribution to the paper.

***Note:** Only **one** research paper from each laboratory will be eligible.

Decisions will be made by a committee comprised of researchers with expertise in the area of lipid chemistry/drug delivery.

All related questions/inquiries can be directed to Dr. Kishor M. Wasan kwasan@interchange.ubc.ca.

Application deadline is **March 1, 2010**. Please submit your application directly to Ms. Bev Berekoff, bberekoff@cspscanada.org.
