

# CONGRATULATIONS TO THE FOLLOWING AWARD RECIPIENTS!

These awards were presented at the 2010 Symposium.

---

## CSPS Award of Leadership in Canadian Pharmaceutical Sciences:

- **Ms. Anne Tomalin**, President, i3 CanReg Inc., Dundas, ON
  - **Dr. Pieter Cullis**, Professor, Biochemistry & Molecular Biology, University of British Columbia/CDRD, Vancouver, BC
- 

## GlaxoSmithKline/CSPS Early Career Award:

**Dr. Carolyn Cummins**, Leslie Dan Faculty of Pharmacy, University of Toronto, Toronto, ON

---

## Gattefossé Canada/CSPS Lipid-Based Drug Delivery Award

- **Aws Alshamsan** (Co-winner), University of Alberta  
For his paper entitled: "The Induction of tumor apoptosis in B16 Melanoma Following STAT3 siRNA Delivery With a Lipid-Substituted Polyethylenimine", by Aws Alshamsan, Samar Hamdy, John Samuel, Ayman O.S. El-Kadi, Afsaneh Lavansanifar and Hasan Uludag. Published in *Biomaterials* 31 (2010) 1420–1428.
  - **Loan Huynh** (Co-winner), University of Toronto  
For her paper entitled: "Enhancement of Docetaxel Solubility via Conjugation of Formulation-Compatible Moieties, by Loan Huynh, Jean-Christophe Leroux and Christine Allen. Published in *Org. Biomol. Chem.* 2009, 7, 3437–3446.
- 

## Antoine A. Noujaim Award of Excellence Poster Award:

**Marwa Elsherbiny**, University of Alberta, Edmonton, AB.

Poster: "The Effect of Hyperlipidemia on P-glycoprotein Activity in Porcine and Rat Renal Cell Line Models"

---

## Biovail Contract Research Award of Excellence Poster Award:

**Clement Mugabe**, University of British Columbia, Vancouver, BC.

Poster: "In vivo Evaluation of Mucoadhesive Docetaxel for Intravesical Treatment of Nonmuscle-invasive Bladder Cancer"

---

## Cedarlane Award of Excellence Poster Award:

**Issa Amara**, University of Alberta, Edmonton, AB.

Poster: "Mercury Modulates the CYP1A1 at Transcriptional and Posttranslational Levels in Human Hepatoma HepG2 Cells"

---

## 2010 National Summer Student Research Program Awards to Present Research Findings at the Canadian Society for Pharmaceutical Sciences Annual Meeting Sponsored by Merck-Frosst Canada Ltd.

National Directors: Dr. Kishor M. Wasan (University of British Columbia)  
Dr. Dale Meisner (Merck-Frosst Canada Ltd.)

<b>Elissa Aeng</b> Title of Project:	University of British Columbia Micellar Paclitaxel and Docetaxel for Intravesical Bladder Cancer Therapy	(Supervisor: Dr. Helen Burt)
<b>David Nguyen</b> Title of Project:	University of Manitoba Cellular Antioxidant Effect of Diltiazem and Silymarin	(Supervisor: Dr. Frank Burczynski)
<b>Sarai Hamodat</b> Title of Project:	Memorial University of Newfoundland Analyzing the potential neuroprotective effects of native Newfoundland and Labrador berries	(Supervisor: Dr. John Weber)
<b>Corey Ramer</b> Title of Project:	University of Alberta A Novel Anti-Angiogenesis Mechanism of Angiostatin: Inhibition of Endothelial Cell MMP-2 Production	(Supervisor: Dr. Paul Jurasz)
<b>Jenna McNeil</b> Title of Project:	Dalhousie University Characterization of P-glycoprotein transport in a novel human proximal tubule cell line	(Supervisor: Dr. Kerry Goralski)
<b>Lindsay Wong</b> Title of Project:	University of Toronto Confounding in Pharmacoepidemiologic Studies of Fracture Risk	(Supervisor: Dr. Suzanne Cadarette)
<b>Katherine Lang</b> Title of Project:	University of Saskatchewan Qualitative Investigation of Barriers to Accessing Health Services by Injection Drug Users in Saskatoon Health Region	(Supervisor: Dr. Anas El-Aneed)
