

Andrea Gilpin, Ph.D., MBA Bio

Andrea Gilpin is the General Manager of the Goodman Pediatric Formulations Centre. Dr. Gilpin began her career as a scientist and completed her Doctorate in Molecular Biology and Biochemistry from the University of Toronto and completed an MBA at the Asper School of Business. Since that time, her career has brought her through several different roles including working 12 years in small biotechnology companies in investor relations and communications. She also worked at two multinational pharmaceutical companies, where for one of these companies she was on the Executive Leadership Team and led the Corporate Communications function. Dr. Gilpin gained commercial experience during her tenure at one of these multinationals, when she worked in marketing for lung and melanoma oncology products. She has been at the Goodman Pediatric Formulations Centre since 2017.
