

Janelle Burnham, M.D.

Janelle Burnham is a pediatrician with experience in pediatric drug development and regulatory science. She obtained her medical degree from Ross University School of Medicine and completed her pediatric residency at the State University of New York (Buffalo) through John R. Oishei Children's Hospital and Roswell Park Cancer Institute. Additionally, Janelle completed a drug development and regulatory science fellowship at the U.S. Food and Drug Administration (FDA), where she conducted research evaluating pediatric clinical trial design elements and prevention of clinical trial failures. Her research focused on stimulating innovation in clinical trials and personalized medicine to improve product development and pediatric patient outcomes. After her fellowship training, Dr. Burnham continued at FDA, Center for Drug Evaluation of Research, Office of Translational Science for many years as a pediatric clinical pharmacologist and labeling specialist. Currently, Janelle is a Pediatric Clinical Director in the Pfizer Pediatric Center of Excellence, where she supports various Pfizer study teams in development of pediatric studies and collaborates with Children's Hospitals to facilitate maximal efficiency in the process and execution of pediatric clinical trials.
