

### **Edress Darsey Bio**

Edress Darsey graduated with her Doctorate of Pharmacy Degree from Mercer University. She completed a Clinical Pharmacy Practice Residency at the University of Alabama in Birmingham followed by a Specialty Residency in Clinical Pharmacokinetics at Mercer University. Following her training, Edress spent eight years developing and leading clinical pharmacy services and a pediatric pharmacy residency program at Children's Healthcare of Atlanta. During this time, she researched and published studies around pediatric pharmacokinetics, pain management and other areas of need. In 2000, Edress joined Pfizer Pharmaceuticals where she worked on a variety of medical teams until January 2014 when she was offered an opportunity to help build Pfizer's Pediatric Center of Excellence in the office of the Chief Medical Officer. Edress has served as a Global Pediatric Medical Director/Pediatric Clinical Director at Pfizer for the last 6 years. In this position, Edress works internally across many Pfizer medicine teams to provide end to end support of pediatric studies, including study protocol development, regulation, pediatric pharmacology and formulations. In addition, Edress works externally with Children's Hospitals to build and maintain relationships with a network of major children's hospitals and pediatric research centers in order to facilitate pediatric clinical trial site identification and to optimize clinical trial process execution for investigators and patients.

Edress has served on the Board of Directors for the Pediatric Pharmacy Association (PPAG) and is current chair of the Drug Development Committee. She is a member of the American College of Clinical Pharmacologists (ACCP) and the American Academy of Pediatrics Section on Advances in Therapeutics and Technology.
