

Karen Walsh BScPhm. ACPR. RPh.

Karen Walsh is a Compounding Resource Pharmacist at The Hospital For Sick Children. She has many years experience in compounding various formulations that are needed in the pediatric population, mainly focusing on extemporaneous oral suspensions. She is involved in conducting stability studies on oral suspensions with Scott Walker at Sunnybrook Health Sciences Centre. She has presented posters and talks at national conferences on compounding. Karen was a recent member of the Pharmacist Scholar Program at the Children's Oncology Group which promotes Pharmacist initiated research such as the published Temozolomide stability study. She is also a member of the Ontario College of Pharmacists Hospital Practice Advisory Committee.
